

# **ENFORCEMENT SUCCESS**

## **Course Outline**

**Enforcement Success - a Private Industry Perspective**, is designed for personnel responsible for protecting their organizations interests and that can benefit from promoting those needs and interests with Law Enforcement (LE). Participants will gain knowledge in the requirements to achieving the highly functioning relationship with Law Enforcement that is needed to meet their private industry needs such as criminal enforcement, case filing, criminal restitution, damage control, successful prosecutions and goodwill generation/partnering. Emphasis is given to the skills required to increase the rate of Law Enforcement and Prosecution case acceptance, which reduces the continued and costly business losses as well as the high costs associated with funding additional security and investigative resources.
